Sale Information

BREEDING SOUNDNESS EVALUATION

All bulls offered for sale have been examined by a veterinary consultant for structural and physical soundness. A Bull Breeding Soundness Evaluation Certificate will be available if requested.

SUPPLEMENTARY SHEETS

All bulls will be scanned prior to the sale by certified scanning technician, Paul Kenny for Eye Muscle Area, Rump & Rib Fat, Marbling (IMF%).

Raw data, sale weight and scrotal size measurements will also be on supplementary sheets. These sheets will be available on sale day as well as on our website prior to the sale.

KEY TO REGISTRATION STATUS

Registered – Herd Book Register (HBR) – Animals entering the Herd Book must have a consecutive traceable HBR pedigree, for a minimum of four (4) generations for the registered sire and registered dam. Eligible for Breedplan and EBVs.

Hereford Performance Register (HPR) – Straight-bred Hereford cattle not eligible for registration in the HBR. Eligible for Breedplan and EBVs.

Herd Recorded – Recorded within our herd, but not registered with Herefords Australia.

For more information, visit: www.herefordsaustralia.com.au/member-services/regulations

KEY TO POLL/HORN STATUS

(P) – Polled **(H) –** Horned **(S) –** Scurred **(H#) –** is a Horned animal either containing Polled genetics or is missing a percentage of its four generation Horned pedigree.

HOW TO USE EBVS

The first step is to decide which characteristics are relevant to your breeding program, then select the EBVs that suit.

Birth Weight - is a major factor in calving difficulty. The lower the EBV the lighter the calves are expected to be at birth.

Milk - is a consideration if breeding replacement heifers.

200 Day Weight - should be considered if producing vealers.

400 & 600 Day Weight - steer and bullock producers should place more emphasis on these.

N.B. The higher the accuracy %, the more predictable the EBV.

N.B. Breedplan EBVs can be a useful tool to help select cattle but are only a part of the total picture. At all times our cattle must remain functional, be structurally sound, suit the environment they are raised in and have the ability to meet market specifications.

The EBVs provided in the catalogue are from the July 2018 Hereford GROUP BREEDPLAN run.

HEREFORD GROUP BREEDPLAN AVERAGE EBVS FOR 2016 BORN CALVES

CED	CEM	GL	BW	200	400	600	MCW	MILK	SS	DC	CW	EMA	RIB	RMP	RBY	IMF

GUARANTEE

All bulls are guaranteed breeders. Any claim against the breeding ability of an animal purchased should be accompanied by a Veterinary Certificate.

INSURANCE

We recommend bulls are insured against injury and death. Whilst all care will be taken with cattle awaiting delivery they become the purchaser's responsibility at the fall of the hammer.

HEALTH

Wallan Creek is an accredited TB and Brucellosis free herd. No dipping is required for purchases as the property is in a clean area. All bulls are eligible to travel interstate free of dipping.

INSPECTIONS

Inspections are welcome at any time prior to the sale by arrangement with vendors or agents.

AGENT REBATE

The vendors agree to allow a 3% rebate to outside agents introducing approved buyers prior to the sale and settling on their behalf within 7 days of the sale.

GST

GST is to be added onto the purchase price at the fall of the auctioneer's hammer. You will be invoiced purchased price plus GST.

REFRESHMENTS

Refreshments for morning tea and lunch will be provided at the sale by the Drillham State School P&C. Please stay and join us for further refreshments at the conclusion of the sale.

DISCLAIMER

The Vendors, Family, Sale Staff and Representatives accept no liability for accidents that may occur, although these are rare at cattle sales. Any person attending does so at their own risk. While all care has been taken in the preparation of this catalogue, Wallan Creek Herefords accept no responsibility in this publication.

All bulls have been parent (sire) verified, blooded, vaccinated with 7 in 1, 3 day sickness and vibrio, as well as muscle scanned for carcase traits.

Raw data will be available on sale day and online (or by request).

KABOSH
CREATIVE

The authentic choice for quality rural & regional website development.

Our professionally created websites are built in best-practice to help rural and regional businesses who want to promote and grow their business online.

We have a genuine commitment to helping our clients, by making it easy and achievable for their businesses to have an effective web presence, without them needing to work with companies in the city who may not understand their business or their audience.

Kate's outstanding eye for detail and dedication to the design task really makes a difference to the end result. We couldn't be happier with the services provided by Kabosh Creative and look forward to having Kate involved in our stud's design and marketing in the future."

Toby & Jane Nixon

The bugger went and *died* on me and... I DON'T KNOW WHAT TO DO!

Without notice, you may need to step in and take over the financial and medical decision making for your loved one.

- Where do you start?
- What documents do you need?
- What information do you need?
- What questions should you ask?
- Who should you talk to?
- What is important?
- What can wait?
- How long is all this going to take?

EnVision Partners Estate Planning for Life process will prepare you and your family to effectively deal with a family emergency or crisis.

Don't wait until it's too late. Contact EnVision Partners for a FREE consultation today.

FlexiPro™
Flexible Supplement Solutions

As part of the Performance Feeds supplement range; FlexiPro provides producers with access to a high quality, cost-effective and versatile supplement.

Like all Performance Feeds supplements, FlexiPro is formulated to meet the National Research Council (NRC) requirements for the supplementary provision of protein, minerals and vitamins and is manufacted as a stable wether-fast solution under strick ISO9002 Quality Assurance standards.

In addition, and unique within the range of single-part, molasses-based supplements available in the market place, only FlexiPro offers the following benefits:

- **The Standard inclusion of our patented, sustained-release nitrogen (protein) source, RumaPro.**
  Optimal product safety and efficacy in all weather conditions and with all forages.
- **A baseline level of effective chemical and/ or physical consumption control.**
  Increased budgeting accuracy over the course of the supplementation period.
- **Customisable formulation that meet the specific needs of your cattle.**
  The ultimate in flexible supplement solutions.

Bult-delivered to your property, Flexipro represents a new era in versatile, effective supplementation for beef producers who prefer to service their own supplement troughs.
